Please forward to me  
Production R30 referred to by you  
with reference to Wm Burns (Freemason).

Gwynne

I think that "R30" refers to a set of letters  
clipped together which were produced fairly early in the  
Inquiry (consisting of a copy of his letter to the Queen  
and letter to M. Forcyn, Comptroller Ball and parents etc)  
While the tone in these letters is critical of  
the Scouts and his police were a nothing specifically  
about the "Brotherhood". Therefore I don't think they  
will be of any significant use to you. Hence I  
do not enclose them!

In framing your letter to Masonic Committee  
member you chose, I suggest keep the  
reply a short and as general as possible. You  
could perhaps state that that matter the  
question of who was the was a member of the  
masonic was not overlooked in the Inquiry.

Then, perhaps, say that there was evidence ~~that~~  
~~effectively~~ indicating that he was not a member and indeed  
that he had written disparagingly about the ~~organization~~  
connection between the police and "motherhood  
organizations".

I hope that this is of some help. Please don't  
hesitate to send me a draft of what you propose  
to write (with the letter to which it is to be a  
reply).

The above official transcript of the Note between Lord Cullen and Glynis McKeand, Clerk to the Dunblane Inquiry is in error in the third paragraph where Lord Cullen states: "In framing your letter to masonic committee members" This should read: "masonic connection writer" i.e.. William Burns who wrote a series of letters to the inquiry before, during and after it sat.  
N.B. Lord Cullen also writes that Thomas Hamilton had "written disparagingly about the masons" but then scores out masons and replaces it with "connection between the police and "brotherhood organisations""
