* Not previously Members of the Society

^ Principals of Edinburgh University

.....
NB. This 9-page list of members of the Speculative Society falls into three categories as follows

- 1/. Extraordinary members with, a sodality number, full name, qualifications, and occupation all taken from the 1968 History of the Speculative Society. This basic data has been updated with more recent information, which has been gleaned, mostly from the web.
- 2/. Ordinary members with a sodality number which has been allotted to the Speculators (as they appear in the 1971-72 Roll) in ascending order, starting with the last number in the 1968 History. These numbers have an asterisk to show their assumed status. The members in this category are taken from the Spec's 1971-72 Roll of Officers of the Society and Ordinary members, which shows only initials for first names, Surname, and qualifications. It has been necessary to fill in the other details by informed conjecture.
- 3/. Ordinary, and extraordinary members, without a sodality number, and with first names initialled only. To which are added details attributed by informed conjecture. These names were provided by members of the Spec, and are assumed as being genuine but require official verification from the Speculative Society. The Secretary of the Speculative Society is unwilling to provide verifying information.

This background paper to the Talk on "PFI Courts & Secret Societies" is produced in good faith, towards transparency in public life and is in the public interest.
